WARD MEETING - COUNCILMEN AND DELEGATES SELECTED .- The "Union" men, accordance with a notice in the city paers, met last evening in the armory of the Independent Zouaves, and selected candidates for City Council, School Trustee, and also eight delegates to a City Convention. The object of the latter, we suppose is to nominate persons for city officers. J. M. Armstrong and Dr. T. L. Caldwell were nominated for Council, each receiving seventeen votes to thirteen for J. B. Walker, and five for Geo. W. Small Mr. Sim Watkins was chosen unanimously for School Trustee. These persons wer selected as delegates, viz: Samuel Matack. Sim Watkins, E. S. Craig, John W

ARREST OF A SUSPECTED COUNTERFEI ER AND HIS MISTRESS .- Policemen Scay, Moore, and Sweeney committed to jai yesterday, H. H. McManners and Alice Long alias McDonald, alias McManners, as suspected felons. The couple arrived here a ew days since, and engaged a room at a house of ill-fame. They had in their posestings, fine linens, a silver pitcher, goblet, &c., which it is believed they obtained ishonestly. The suspicion of the charac er of the man is confirmed by the fact of his having \$35 in counterfeit and broken

bank bills. It is thought the goods are part of a lot ecently stolen in Memphis. The woman laims that the silver ware was given to her at Centralia, Ill. A curious silver coin was found on McManners, which it is believ ed is a counterfeiter's medal.

IMPORTANT ARREST .- We learn from the Terre Haute Express that a special agent of the Postoffice Department, on Saturday last, arrested N. B. Markle, one of the oute agents on the Terre Haute, Alton and St. Louis Railroad, on a charge of robbing the mails of money-letters and packages The agent has for some time been engaged n an effort to trace up missing letters containing money, and for this purpose had DOURBON, RYE, SCOTCH AND IRISH WHIS.

It is hoped that every patriotic citizen in favor of peace and equality will OF THE FRENCH SPY, AND THE LAUGHABLE FARCE OF THE COLLEGE BOY-MISS ST CLAIR IN THREE CHARACTERS .- To-night will be presented the grand military drama of the French Spy, founded upon a roman-tic incident connected with the occupation part of the present century. This drama dates its popularity from the advent of the celebrated Madame Celeste to the Ameri

can stage. It is rarely produced at the present day as it is difficult to find an actress possessed of the peculiar talent requisite for sustainng the triple character of Henri, Hamet and Mathilde. In each and all of these characters, Miss St. Clair is highly success ful. Nothing can be more attractive than the beauty, grace, and pantomimic expression of Hamet as depicted by this accom plished actress. We expect to see a full house to-night. Miss Jennie Hight, "la peite reine du ballet," illustrates the poetry of notion in the bewitching dance of the Gitana. Jennie's parting smile and inimitable farewell salute at the close of a dance, re alone worth the price of admission. It is a grace, instinctively natural, and worth a thousand of the affected "vivandieres" y the aid of which the little Piccolomini tripped gaily over a high note of music, and humbugged the whole musical world. The performance will conclude with the popular farce of the Eton Boy, in which that very general favorite, Mrs. Dickson.

mith O'Brien has lately written a letter ontroverting Mr. John Martin's proposiion that a French force should invade Ircland for the purpose of establishing a national independence, round which all Irishmen could rally. Mr. O'Brien shows that all such attempts have failed in the past, and are not likely to be successful now, and that French intervention in Spain and other continental nations was lestructive of their freedom. In such an event, Ireland would lose its charm for him, and he would emigrate to Australia, the wild lands of Canada, or the United States. Mr. O'Brien also shows that Ire land would have far less freedom than un der English rule, for even in France Bishop cannot communicate with his cler gy, except through the Government, and that no Irish newspaper, now in existence, could criticise the acts of the French Gov-

ernment with the freedom they now enjoy A TITLE AND A FORTUNE .- Mrs. Ryves, ne niece of George III, has obtained a re ognition of her legitimacy from the matri nonial causes court in London, and thereby comes into possession of the revenues of the duchy of Lancaster, amounting to £1,004,643, and also £105,520 as bequests rom the royal family, and is Princess of 1790." Like the Gaines and Bonaparte ases, this hinged on a question of legitimacy. The facts we have already pub

aployed in Hugh Irvine's planing mill, corner of Clay and Washington streets was quite severely injured yesterday by one of the cutting machines flying to piece while it was in operation. He was struck n several places by the fragments, his and being broken and his body and limbs considerably cut and bruised. Three other persons at work alongside of Hume were not touched or injured.

WHAT WILL CAUSE WAR .- It is report ed that the Southern Congress will regard any attempt on the part of the United States to maintain its authority in the Confederate States as an act of war, which will be followed by instantaneous reprisal .ween First and Second, of a general stock | The collection of the revenue and the retention of the forts it would take as an a tempt to hold them in subjugation.

COMMANDER-IN-CHIEF OF THE ARMY THE CONFEDERATE STATES .- It is highly probable that General A. S. Johnston, late amander of the Utah army, will be appointed Commander-in-Chief of the arm of the Confederate States. It certainly

be made. The notorious Charley Miller wa rrested by Carter W. Tiller last evo ing, charged with burglary, and stealing a pair of pantaloons and a lot of clothing from W. Connell and others. He is an old ofender, and will have to answer this pretty

plain case this morning. FALAL AFFRAY .- A difficulty occurred in Christainsburg, Va., on the 13th inst., be tween J. Kent Anderson, Esq., and Addi on Logan, nephew of Hon. H. A. Edmund son, which resulted in the shooting of An derson, and causing his death in a shor

[For the Louisville Courier.]

Amongst the various candidates for the office of City Attorney, I see the name of A. M. Stout, Esq., our present excellent assistant City Attorney. The General Council created the office of assistant City Attorney, whose duties are entirely distinct from the office of City Attorney, and appearains to the management of actions of a pertains to the management of actions of a

Mr. Stout has held this office for several years, during which time he has discharged its labors with an industry and fidelity that should entitle him to the consideration and suffrages of all who may have felt an inand suffrages of all who may have felt an in-terest in the property of this city. All the lawyers will bear testimony with me, that no one could have filled the office he now holds with more vigilance and fidelity.— This should give a pretty good assurance to the voters of this city that Mr. Stout will, it eletted, discharge the duties of City Attorney with fairness, promptness, and idelity. As a member of the bar, though of other polities than Mr. Stout. I feel it of other politics than Mr. Stout, I feel my duty to say this much in behalf of wor integrity.

A ROWANCE SPOILED.—The New York correspondent of the New Orleans Delta states that Lola Montez's last love was a young man named Follen, whom she picked up in San Francisco and took to Australia. He had two girls under his charge and bearing his name. Who they were no one knows. They could not have been his daughters, unless he married at the early age of ten. Lola and Follen quarreled like cat and deg, and he committed suicide, they say, in order to get rid of her. This was in 1856. Lola returned to the United States in 1857-58, with the girls.—She called the elder one Minnie Montez, and, as she was very pretty, put her on the stage, and made money by the operation.—More than two years ago this girl was married, not to an officer of the Navy, but to a gentleman who was once our Minister to Nicaragua. So there could have been precious fittle education for her at a seminary in Troy, as the story goes, where the term is four years! Lola did tell her doctor that Minnie ——had cut her, and that she had had hysterics and smoked a A ROMANCE SPOILED .- The New York tor that Minnie ----- had cut her, an that she had had hysteries and smoked great deal too much in consequence. Church.—The Moniteur makes the following statement:
An important concession has been obtained at Canton. The Viceroy has granted to our missionaries, for the crection of a Catholic Church, a magnificent space of ground situated in Canton itself, where stood, before the occupation of that city, the palace of the celebrated Governor Yeh. For more than two years the French authorities have claimed that the Bishop of the Two Konangs should receive at least a part of the land formerly belonging to Catholic establishments, the owners of which had been driven away and despoiled at the time of the last persecutions directed in the Celestial Empire against the CHURCH .- The Moniteur makes the tollo at the time of the last persecutions directed in the Celestial Empire against the Christians. Our successes in the north have happily put as end to this controversy, and the church, which will shortly be built will comp be built, will soon give a striking proof of the solicitude of the Emperor for the r ligious interests placed under the tradition of protection of France in the extrem

Accidentally Killed.—The Natchez Courier of the 19th inst. says:

Mr. Robert Moore, of Jefferson county, we regret to learn, was accidentally killed last Friday evening, near the residence of his brother-in-law, Wade Harrison, Esq., in Jefferson county. He was thrown from his horse while crossing a bridge, about a mile and a half from Mr. Harrison's, and falling between the timbers of the bridge, or caught by them, he remained all night, being found dead early the next morning. Both his arms were broken. He evidently was unable to rescue himself from his position, and perhaps died through the exposure. The night was cold and stormy. ACCIDENTALLY KILLED .- The Natche

The Floating Battery at Charleston -- Another Description of It. The Charleston (S. C.) correspondent of he New York Times writes on the 18th

I have just returned from a visit to the I have just returned from a visit to the famous floating battery or raft, which is now entirely completed, and will be launched at the first favorable tide. There have been so many crude ideas concerning this novel weapon, and such ridiculous ideas concerning its real object, that a genuine and positive statement of its powers and purposes will, of course, be interesting.—It may be relied upon, as I had it direct from a leading person employed in the It may be reflect upon, as I had it direct from a leading person employed in the construction of the new military leviathan. Your readers will please imagine a huge box, forty-six by eighty feet, pierced for a sufficient number of rifled cannon, and sufficient number of rifled cannon, and with a roof covered with three thick plates of the best sheet-iron, and rendered perfectly bomb-proof. It will draw, with the armament and the complement of men—300—only four feet. At a judicious time or turn of the tide, it will be floated down with the aid of two steam turn, to a point with the side of two steam turns, to a point

with the aid of two steam tigs, to a point on the land or inner side of Fort Sumter, distant just 600 yards. At such a proximity, Major Anderson's uns, they say, cannot be deflected; and thus secure from his terrible columbiads, &c., they will pepper away at the weak part facing Morris and James Islands, until they effect an entrance; or, military speaking, make a breach. Thus, having him at advantage, with the Cummings Point betteries now immensely strong. Point batteries, now immensely strong shelling him; with Moultrie's fearful can sheling him; with Moultrie's fearful can-nonading, also now a terrible customer; with James Island, too, pouring in the iron rain, they think the little band at Sumter will be very like the poor fly that became completely entangled in the meshes of the spider. It is my deliberate impression that, with the extraordinary activity that has been displayed since I left my labors has been displayed since I left my labe that Major Anderson will be utterly unni-hilated when they do commence.

Some grim customers of cleven inch bore have just been received here, and they will be mounted within a week. The twelve Armstrong guts, that I have before alluded

to, are now on their way, and will probably arrive by the 1st March. General Twiggs and the Government The telegraph, yesterday, advised us that en. Twiggs, of the United States Army, had surrendered the Government property in Texas to the State. The following ha

Texas Military Affairs.

The San Antonio Ledger publishes an address to Gen. Twiggs, signed by seven citizens as a committee on behalf of the order of K. G. C., representing one hundred and twenty of the responsible citizens of San Antonio, remonstrating against the concentration of U. S. troops at San Antonio, or any attempt of Gov. Houston, or any authority emanating from him, to obtain possession of the property of the Federal Government, unless the Convention delegate to him powers for that purpose; and declaring it to be their duty to prevent any similar attempt on the part of any unauthorized parties.

In compliance with this request, the Ledger says that Gen. Twiggs not only countermanded the troops en route for the city, but sent those already there back to their respective posts.

TROOPS FOR THE RIO GRANDE.—The Galveston Civilian of the 19th says: Seme four hundred volunteers left Galveston to-day, on the steamers Gen. Rusk and Union, for the Rio Grande. The expedition is under the command of Col. John S. Ford, the well-known Texas ranger. The following are among the forces which sail from this city: The Lone Star Infantry, Capt. Redwood, from Galveston; the Galveston Artillery, Capt. McLeod; a company from Houston, under Capt. Edwards, and one under Capt. Oldham; an incomplete company from Fort Bend, under Capt. Bonner, an old ranger. It is understood that these forces will be joined, on the Rio Grande, by a large body from the interior. The precise object of the expedition, which seems to have been authorized by the Convention, is not stated; but it is believed The information in our possession seems to justify such an inquiry as the resolution proposes. It is a fact that some of the cotton now produced in this Confederacy is already seeking a new channel to the sea. We are informed that at Pittsburg, Pa., more than 20,000 bales of cotton have already been received, conveyed thither up the Mississippi and Ohio rivers.—We are also informed that more than 20,000 bales of cotton from Rome, Ga, have been vention, is not stated; but it is believed that it will take charge of the forts, arms and military stores of the late United States army, on the Rio Grande. icating with the principal lines lice our cotton to markets in Northern ports. There are few nen in the South who are more compe-tent, in point of ability and business ca-acity, to administer the department of the Treasury under the Government of the student, learned and full of resources as an accomplished advocate, he is eminently a man of facts and details. This is an essential qualification to a great financier, and combined with ability and integrity, almost insures success to one who, like Mr. Memminger, has studied political economy by the great principle of laisses vous falve. WEDNESDAY MORNING.......FEB. 27

The Time Draweth Nigh. The 4th of March, 1861, strictly speal

ing, will be the crisis in our affairs. At 12 o'clock on that day, Mr. LINCOLN elected as the embodiment and representa tive of an "irrepressible conflict" against \$4,000,000,000 of property owned and held by citizens of the American Union on the 6th of November last, and against the institutions of fifteen sovereign States, will be inaugurated as President of the United

All free Governments are instituted for the "peace, safety, happiness, and security" of the people, and for the "protection o their property." And however they may be perverted, these are the objects for which all government is founded; and to these ends all the powers of all the departments of government should be direct-

In some parts of the world anarchy and confusion prevail, and neither life, nor liberty, nor property is safe: In other countries the reins of power are held by despots and tyrants; but after Monday next, our own Confederacy will present the only instance, in the old world or the new, among civilized nations in which the Governmen is used avowedly and professedly to injurand destroy, not to protect, the property of its citizens.

Here, an institution so interwoven with the social, domestic, economical, and po-litical relations of fifteen States as to render any interference with it destructive to the vital interests of twelve millions of people, will be outlawed by the accession to power in the Federal Government of those who believe and have solemnly asserted that "slavery" is a "relic of barbar ism," the "irrepressible conflict" will be come the policy of a common government of all the States of the Union: and the most important property interest in the old Union would, but for the action of the Se ceding States, have been put in process of annihilation.

One crisis was passed, when, on the 20th of December last, the people of South Carolina solemnly dissolved their connection with the Confederacy known as the United States of North America: the subsequent action of Georgia, Alabama, Louis iana, Mississippi, Texas, and Florida was anticipated, and followed naturally and under the circumstances inevitably. The Union was then dissolved.

Another crisis is now at hand; and the is sue is peace or war. On Monday next it will be determined for weal or woe. And we are scarcely left to doubt what the re

War will follow We have understoo any attempt to treat them as parts of the Union whose capital is at Washington; any attempt to execute the laws of that Union in the new Confederacy is war; and peace can be preserved only by the Administradence of the seceding States.

What the policy of that Administration is determined on now; and in the rush of of the events of the day; but the opini events we see nothing to justify a hope of the reporters generally we think that it will be modified or changed; and interested opinions of men net altogether that policy is, adherence to the Chicago competent to instruct or advise the public. programme, the enforcement of the laws of the Union in the States that have withdrawn, the collection of the revenue in the ports of the Southern Confederacy the recapture of all the forts and arsenals which those States as a measure of defense have taken possession of, and the punishment of these whom Northern fanatics and Southern demagogues are pleased for their own ends to consider traitors.

The consequences of this policy will rest upon the heads and consciences of those who conceived, sustain, or encourage it; and the blood of all the gallant men who may perish in the unholy war waged by madness and folly and cowardice against men for preferring liberty and indepen dence to inequality and degradation, will rise up from the ground to curse the statesmen and politicians of the North who are provoking it and the Southern tories who aid and encourage them.

Even yet men have not become aceu tomed to look upon the dissolution of the Union as a fixed fact; and we fear that few realize the imminence of the dangers now upon us. Our fellow-citizens have been taught to believe that their "Northern brethren" wik yet do justice, and preserve a Union already numbered among the things that were; and they cannot conceive that the purposes of the Free State Administration, soon to be in power, are such as those who have watched more closely the current of events know will be

But the day and the hour is at hand when even the blind will be made to see and the deaf to hear; when the propriety of our repeated warnings will be acknowledged, with regrets that they were not eeded; and when the politicians who have preached "peace! peace! when there is no peace," will be anothematized by by their treacherous appeals and the false there is no settlement. hopes they have inspired. The time draweth night!

with the principles laid down by him in his

The Journal thinks something good s come out of Nazareth. One LEONIDAS W. SPRATT, of South Car lina, has written a very long and a very dull and stupid letter, which was intende o injure, in some manner, the cause of the onfederate States of America.

Mr. SPRATT, fortunately, hasn't intelled tual capacity, or personal influence, or political position to give him any very fornidable power for good or ill; and his letter, which is chiefly remarkable for it ength, will only be printed in the organ of the two wings of the great liberal party and read by none but those who are driven to desperation in their search for some thing with which to attack the South.

Mr. SPRATT, we are informed-and our aders will not be surprised to hear-is a Northern man resident in South Carolina and with few of those qualities which the chivalric sons of that noble little State look for in their political leaders, he is driven by love of notoriety to the most desperat shifts to keep himself before the public even though it be at the sacrifice of honor able position and solid and enduring repu

Won't Repeal. The Joint Special Committee of the Massachusetts Legislature, to whom the subject had been referred, a few days since reported against the repeal of the Personal Liberty Law of the State. They conclude their reflections on the duty and obligations of the State by saying:

Every man on the soil of Masaachusetts is prima facie free. And this presumption should not be cut down without the most plenary and convincing proof to the contrary. The protection of personal freedom is the primary object of government, and should never be subordinated in deference to the rights of preperty. ence to the rights of property.

We presume the proposition to repeat was only entertained to delude the Border Slave States with hopes never to be real ized until it would be too late for them to act before Mr. LINCOLN should be inaugurated.

Is it not possible for the Submis sionists to advocate their cause without constant abuse and slander of the South? One-half of what they say is either so low that it is beneath notice, or so absurd that it refutes itself. The other half related about as nearly to the subject of secession as to the man in the moon. Still, because their abuse is not answered, they suppose it unanswerable, and continue to assert and reassert the same charges until they seem ready to believe the greatest absurdities.

The real question the Peace Conerence is trying to settle is, how much shall the Black Republicans take with the Government, and how much shall the Border States give up to get to stay in under it. This is a very nice question. As the Border States are very anxious to stay in, they offer to give a great deal, but as the Black Republicans are now sure of ose who have been deluded and deceived the power, they insist on taking all. So

YESTERDAY NOON'S DISPATCRES. The National Troubles:

More of the Assassination Plot! The New Cabinet!

THE PEACE CONFERENCE,

Excitement and Indignation at Richmond!

From Washington. WASHINGTON, Feb. 25 .- The third claus

f Guthrie's proposition was debated by onference to-day without a vote. A ses-son is being held to-night. Strong efforts to making to come to a conclusion on the whitest

are making to come to a conclusion on the subject.

The War Department to-day received corroborative dispatches that Gen. Twiggs had surrendered to the Texas rebels all the Government military property. Secretary Holt had dispatched orders to relieve him, but they could not have arrived.

The most reliable report of the construction of Lincoln's Cabinet is Seward, Secretary of State; Bafes, Attorney-General; Gilmer, of North Carolina, Secretary of the Navy; C. B. Smith, Secretary of the Interior; Willis, Postmaster-General; Camcron, Secretary of the Treasury.

Dispatches to Government report a large expedition leaving Galveston for the Rio Grande, consisting of six companies from Galveston and Heaten.

expedition leaving Gaiveston for the rice Grande, consisting of six companies from Gaiveston and Houston, and two from the interior. The object is declared to be pro-tection to the frontier in the event of the United States troops being withdrawn.— Col. Ford, an old ranger, commands the regiment. giment.
It is presumed here in many circles that ol. E. V. Sumner will be promoted to the manission dishonored and abandoned by

cont. S. Sufficient with the promoted to the commission dishonored and abandoned by Gen. Twiggs.

Despite exciting rumors brought to the city last night Mr. Lincoln slept and rested well. To-day President Buchanan, Mr. Stanton, and other prominent Democrats called on him.

Lord Lyons and the Ministers from France, Prussia, Spain, and elsewhere, left their cards with him, as did also the Secretaries of the various Legations. General Scott, Seward, and several prominent Republican Senators were closeted with him this morning concerning the ceremonics connected with his inauguration.

At a general levee given by Mr. Lincoln, several hundred gentlemen from all sections of the country paid their respects to him this morning. He visited the Senate and House of Representatives.

Mr. Wood, manager of the Presidential trip, called to report this morning to Gen.

Mr. Wood, manager of the Fresteinman trip, called to report this morning to Gen. Scott. The General told him that every-thing had been done as it should have been —that he approved of every step, and Mr. Lincoln did exactly as he should have done when he left Harrisburg and came through, via Faltimore.

Lincoln did exactly as he should have done when he left Harrisburg and came through, via Baltimore.

Information is before the proper authorities tending to prove that an organized body of 500 men have sworn that Mr. Lincoln shall never sleep in the White House. A detective who joined them says the plan is as follows:

The entire band are to occupy a position as near the President on inauguration day as they can obtain, one of their number standing in the center of them is to shoot Lincoln with an air-gun, when the crowd of men around the assassin will so hide him as to render detection impossible. Further details may be obtained to-night, though for many reasons it is deemed advisable to withhold definite information.

A document was handed to Mr. Lincoln to-day signed by a majority of the Indiana State Senate, headed by the Lieut. Governor, recommending Mr. Colfax for Postmaster-General. Mr. Lincoln observed that this was very strong, and there seemed a very general desire in many parts of the country that Colfax should have the position indicated.

tion indicated.

The Peace Convention has been is session all day. The debate was the most spirited which has yet occurred. Mr. Guthrie and some of his friends became so much offended that they left the hall, and signified an intention not to go back. The Convention, at one time, was very near breaking up, but better counsels prevailed. Mr. Guthrie subsequently returned and business proceeded at seven o'clock. Some members stated that a night session was probable. There is no hope of an adjournment to morrow. The Government seems to have mad

to-morrow.

The Government scems to have made more than one effort to get possession of the builtion fund in the New Orleans Mint.

Postmaster General King, on the 19th inst., drew on Mr. Guizot, Assistant Treasurer of Louisiana, for \$300,000, but his drait, like Secretary Dix's, was dishonored.

Washington, 26.—The dispatch received yesterday by the Secretary of War informing him that Gen. Twiggs had surrendered the military property to the Revolutionists in Texas, was from the Commissary of Subsistence, and dated at New Orleans.—He adds that the use of the Government means of transportion was allowed to take the Federal troops to the scaboard, and they were permitted to take with them three or four cannon and their side arms. The Secretary received this morning the documents from Texas, showing that as early as the 6th of February, Gen Twiggs was entering into negotiations with the Texans for the surrender of the military property.

Col. Maite was several dispatch received the surrendered the received the federal troops to the scaboard, and they were permitted to take with them three or four cannon and their side arms. The Secretary received this morning the documents from Texas, showing that as early as entering into negotiations with the Texans for the surrender of the military property.

Col. Maite was several weeks ago appointed to succeed Gen. Twiggs as chief of the military department of Texas, but it appears he had not reached there at the time of Gen. Twigg's surrender, which is considered by the Government authorities as one of the most disgracefully atrocious acts committed by the Secessionists.

The Peace Conference was in session till 1 or 2 o'clock this morning. The spirited debate previously commenced continued, and during the night's proceeding atrochem the property of the proposition, with modified verbiage. This was in Committee of the Whole, but it will be voted on definitely to-day.

Excitement in Richmond.

Excitement in Richmond. RICHMOND, Feb. 26.—A strong speed was made in the Convention yesterday b Mr. Moore, of Rockbridge, in Letcher district, which was inimical to the right of Virginia and the whole South. It was decidedly Union in its tendency, an strongly against the action of South Carolina.

The secessionists posted bills calling on every true Southerner to attend an adjourned meeting. Music was engaged, and 1,500 persons assembled near the Exchange Hotel, where strong Southern speeches were made by the delegates to the Convention. Gov. Wise was called for but was unwell. The meeting adjourned to the Shotwood House where more speeches were made. An attempt was made to burn Moore in effigy, but was stopped by the Mayor. This whole decided secession demonst

DR. BRANDRETH:—Dear Sir—I have long want-

to write to you and express my gratitude for the beneficial effects that have been experienced in my own family and in hundreds, aye, thousands of others, by the use of Brandreth's Pills. The first year my friend Brockway sold your pills in Boston, 1888, I was then in a declining state of health, and my felonda as well as myself emponed that he any fiends as well as myself supposed that my earthly voyage would soon terminate. Mr. Brockway urged me to take the Brandreth's Pills, but laving used so much medicine with no good effect, I was more inclined to let nature take its course, and c.lmly submit to my fate. Mr. B. offered to over he one dozen toxes it I would take them a reserribed. By this time I saw he had great fait in them, and I finally consented to take them, but as a gift. I went hom, and went at it most oppelessly. After taking one box I began to fee better. Well, sir, when I had used up my twelv oxes I was a well, healthy man-my weight having the feet of the second of t one from 131 pounds up to 152 pounds. THE PRADERS is the favorite sign by which nature nakes kn°wn any deviation whatever from the na caral state of the brain, and viewed in this light it may be looked on as a safeguard intended to give actice of disease which might otherwise escape attention, till too late to be remedied; and its indications should never be neglected. Headaches may be classified under two names, viz: Symptomatic and Idiopathic. Symptomatic Headache is exceedingly common and is the precursor of a great variety of diseases, among which are Apoplexy, Gout, Rhee. it is sympathetic of disease of the stomach consti-tuting sick headache, of hepatic disease contituting bilious headache, of worms, constipation and other disorders of the bowels, as well as renal and uterine affections. Diseases of the heart are very frequent by attended with Headaches: Amenia and plethors are also affections which frequently occasion Head-ache. Idiopathic Headache is also very common, heigh smally distinguished by the coneing usually distinguished by the name of nervou eadache, sometimes coming on suddenly in a state f apparently sound health and prostrating at once mental and physical energies, and in other inces it comes on slowly, heralded by depressi stance it comes on slowly, heralded by depression of spirits or acerbity of temper. In most instance the pain is in the front of the head, overone or biges, and sometimes provoking vomiting; under this class may also be anamed Neuralgia.

For the treatment of either class of Headacneth. Cephalic Pills have been found a sure and safe remedy, relieving the most acute pains in a few minutes and by its subtle power eradicating the diseases o which Headache is the unerring index.

Constipation or Cositiveness,

No one of the "many ills flesh is heir to" is so pret, so little understood, and so much neglected a tiveness. Often originating in carelessness, o entary habits; it is regarded as a slight disorde of too little consequence to excite anxiety, while in reality it is the precursor and companion of many of the most fatal and dangereous diseases, and unless early eradicated it will bring the sufferer to an untimely grave. Among the lighter evils of which costitiveness is the usual attendant are Headache Colle, Rheumatism, Foul Breath, Piles, and others of like nature while along train of frightul diseases such as Malignant Fevers, Aboseses, Dysentery, Diarrhæa, Dyspepsia, Apoplexy, Epilepsy, Paralysia, Hysteria, Hypochondrissis, Melancholy, and Insonity, first indicate their presence in the system by this alarming symptom. Not unfrequently the diseases named originate in Constipation, but take on an independent existence unless the cause is eradicated f too little consequence to excite anxiety, while i ation whenever it occurs, and no person should ect to ket a bo of Cephalic Pills on the first aparance of the complaint, as their timely use wi stroy the dangerous foe to human life.

OFFICE LOUISVILLE COURIER, TUUSDAY EVEN'G, Feb. 26, 1861. The movements in financial circles de-cloped nothing new to-day. The demand or money was very small, and in all cases where good paper was offered it was read-ily met at the usual rates of interest. Ex-

change and uncurrent money are the same as before reported change and uncurrent money are the same as before reported.

In the general market but a small amount of business was done, though things looked much brighter than for some time, owing to the fact that the Nashville Railroad was receiving goods during the entire day and that they were shipped through. The demand for flour was small, at \$4.50@\$5.65 for superfine to fancy family brands. Wheat is quiet, with a small demand at \$1@\$1 10 for prime red and white. The demand for corn was larger to-day than for some time, and prices were firm. The sales to-day were made at 49@53c for mixed to choice white shelleed, sacks included. Oats are quiet fore reported. nelleed, sacks included. Oats are quiet and unchanged. Whisky is steady and

shelleed, sacks included. Oats are quiet and unchanged. Whisky is steady and firm at 14½(£014½c).

In the grocery market there was a much better demand for sugar, and the sales amounted to over 150 hhds at 6½(£07½c), the market closing very firm at our quotations. Molasses is very firm with a good demand at 32(£33c) for barrels and 35(£36c) for half barrels. Coffee is steady at 1334(£14c).

The River was falling steadily yesterday, with fully nine feet water in the canal, by the mark, at dark. On the falls there were six feet steamboat water and seven feet in the pass. During the previous twenty-four hours the river had receded six inches at the head of the falls and eighteen inches at Portland. The weather was cloudy and moderate all day. At Pittsburg, at noon yesterday, the river was falling, with ten feet three inches in the channel, while at Cincinnati it had fallen twenty-one inches.

The Mississippi at Memphis Saturday was rising at the rate of six inches in twenty-four hours, with the departure the day previous of the Horizon and Lady Franklin for the Ohio.

The Woodford, Trio, A. O. Talor, and St. Cloud, from the Ohio, arrived at Memphis Friday.

Accident.—At Memphis, Friday evening, as Cautain Stewart, of the New Uncle Sam, was handling a loaded pistol, it was accidentally discharged, and the ball glancing, struck a newsboy named Alfred Beer, on the foot, inflicting a painful wound.

Northern Drugs Hurried South.—Yesterday morning the tag boat Advance came down from Pittsburg and was hurried over the Falls, on her way to New Orleans with a brace of barges in tow, all laden with bitters. We learn that the officers of the boat are to receive extra pay if they reach New Orleans before the 4th of March, so as to anticipate the Southern tariff. The cargo consists of some 10,000 boxes of bitters. That, at 50 cents per bottle, is \$60,000; quite an investment of drugs.

Tariff on Coal.—We learn by special dispatch from New Orleans yesternay to G. Miller & Co., coal dealers in this city, that a tax of twenty-four per cent. has been assessed upon Pittsburg coal that may be sold, or contracted, or delivered in Louisiana after the 4th of March. A modification of that law has already been suggested, and we hope it will be promptly acted on, or else it will be a severe tax upon consumers of that pecessary action.

Three Boats Sunk.—Our New Orleans exchanges of Friday last report the following disasters in upper Red river:

The Sallie Robinson, which came in from sefferson, reports that the river was falling above the raft, and that three boats had sunk there. The Moro sunk at Spanish Bluft, on her way up. She was about three years old, and worth about eight thousand dollars. Her owner was Capt. John Amsden, and she was insured in this city. The other two sunken boats were the Gipsey and Larkin Edwards, both stern-wheelers and not worth a great deal. The Gipsey, Capt. Murphy, bound down, with 41 bales cotton, sunk at Devil's Eibow, Black Bayon—boat a total loss. She was dropping through Black Bayon, stern foremost, knocked her rudder post out, and sunk out of sight in five minutes.

The highest duty of a Government, which dates far anterior to all Constitutions, is to preserve its existence. Mr. PRYOR said the purpose of the

Mr. PRYOR said the purpose of the dominant party, plainly manifest and openly avowed, is to drive through the bill by the pressure of an irrepressible conflict. As this was a foregone conclusion, he hoped it would pass at once, to the end that the people of Virginia and the South may be aroused to the perils which menace them. He defiantly challenged them to assume the attitude of hostility corresponding to their bloody designs. He knew the Republican party was resolved never to recognize the independence of the seceded States, nor to surrender the control over the captured forts; in short, they are resolved to permit the South no other alternative but submision or subjugation.

r subjugation. Mr. CURTIS said that Mr. Pryor had in-Mr. CURTIS said that Mr. Pryor had indulged in declarations and denunciations
similar to that of his colleague, Mr. Bocock. The Republicans were accused of
meditating coercion, when everything
done and said had no such bearing. The
gentleman expressed the hope that the
bill would speedly pass, for the purpose
of arousing Virginia and the South. He
did not thus speak to reason, to the bill, on not thus speak to reason, to the bill, or to Congress, but to the Convention of Virginia and the Assemblies of the South, who are taking action against their own mother country. The gentleman's own statement, that a Confederacy exists within the United States, should induce us to draw around ourselves all the means of power and protection we can command.—

The bill now pending was for defense. He contended that there was nothing unconstitutional in the bill, which only extended the provisions of existing laws.

Mr. BURNETT asked whether it was the purpose of the Republicant urpose of the Republicans, under this ill, to reinforce forts in seceeded States ow held by the Federal Government; to ecapture forts taken therein unless they

now near the receral Government; to recapture forts taken therein unless they shall be surrendered.

Mr. CURTIS replied that his purpose was to support the Constitution as it is until some power shall be vested in him to do otherwise. He had sworn to support the Constitution, and must do so. It may not be necessary to reinforce those forts in the present exasperated state of the public mind. He recognized rebellion and civil war as existing in the South. He would resort to all honorable means to avoid a conflict of arms, and did not believe it would be necessary to move an army thither until the people carry their hostilities against the United States to such an extent as to demand it.

Mr. BURNETT said—Though not estimate the such an extent as to demand it.

ties against the United States to such an extent as to demand it.

Mr. BURNETT said—Though not satisfied with the answer, I must accept it.—
He asked another question: In executing and enforcing laws, do you hold it necessary in so doing to reinforce the Southern forts in possession of the Federal Government and to recapture the property. forts in possession of the Federal Government, and to recapture the property?

Mr. CURTIS replied that he was not going to say, in public and in open session, what it may be the duty of his country to do, and would only speak of designs and measures in secret session, if they were few hostile nurroses.

or hostile purposes.

Mr. SIMMS, of Kentucky, in his seat, aid "Murder."
Mr. CURTIS, in the course of his reply. Mr. CURITS, in the course of his reply, said "murder" came from the other side. Acts of assassins were not from Republicans. The murderous axe was wielded by persons skulking in the Executive chamber and Senate of the United States, striking their own mother, their mother country.

Mr. BURNETT spoke against the bill and in favor of the recognition of the fact of the existence of a separate government in the seceded States. In arraigning the Republicans, he said they had rejected all propositions from Border States, and to accept less than what they demand was dishonorable.

Mr. CORWIN moved to postpone the bill to Thursday.

Action of the Masons,

bers: OFFICE OF GRAND MASTER OF GRAND) LODGE OF KENTUCKY, STANFORD, Ky., Feb. 16, 1861.

STANFORD, Ky., Feb. 16, 1861.

To the Masters, Wardens, and Brethren of the Lodges subordinate to the Grand Lodge of Kentucky:

BRETHER: My attention has been called to the fact that two of the Lodges of Kentucky have, since the last Grand Annual Communication of that body, departed from the teachings of Masonry by passing resolutions of a political character and publishing the same in the public journals of the day. A personal acquaintance with many of the brethren who have participated in the proceedings referred to, warrants me in the belief that, however impolitic their action may have been when viewed in the light of Masonic experience, they were nevertheless actuabeen when viewed in the light of Masonic experience, they were nevertheless actuated by pure and patriotic motives. It is a duty incumbent upon me, however, to warn my brethren of the danger of ever losing sight of the time-honored customs of our institution; and whilst the right of every Mason, as an individual, to enjoy and express in a proper manner his opinions upon all political topics is unquestioned, it is a manifest departure from the usage, as well as the policy of the Craft, to enter the arena of politics as Masons or as Lodges.

Wirginia Convention.

RICHMOND, Va., Feb. 26.—In the Convention to-day Mr. Goode finished his speech, affirming that it was the duty of Virginia to go with the South.

Mr. Goggin offered resolutions that it is the duty of Virginia to invoke co-operation of the Border States to provide measures for concurrent action hereafter; that Virginia, attached to the Union as it was, but, that as it is, it does not protect her rights; and in the event of failure to obtain relief, it is her duty to provide for the future relations she is to occupy as one of the Southern States. He made a long speech, denying the constitutional right of secession, but there was a revolutionary remedy for wrongs. He wanted a constellation of the Border States to form a Confederacy and in the event of in a confederacy and in the observance of this fundamental principle is the only hope for the perpetuity of Masonry. In the language of the Ancient Charges, with reference to religion, it is in leaving the particular opinions of all men to themselves; that is, requiring Masons to be "good Men and True, or Men of Honour and Honesty, by whatever Denominations or Persuasions they may be distinguish'd; whereby Masonry becomes the Center of Union, and the Means of Conciliating that it was, in fact, but a party engine. It is obvious that this charge applies with equal force to the respect due to political as well as religious opinions.

The enemies of Masonry have objected to the Institution was made subservient to partisan and revolutionary objects, and that this led to its suppression in Spain, Italy, Portugal, Austriba, and Russia. Without, however, attributing any other than lau odges.
It is the boast of our institution that diff

praiseworthy motives to my Brethren, whe have thought proper to express their opin ions upon the political topics which now agitate the country, and with a full appreciation of the spirit which controlled their deliberations, as well as a profound respector the opinions of the Fraternity at large as Grand Master of the Grand Lodge of Kentucky, I most affectionately ware the as Grand Master of the Grand Lodge of Kentucky, I most affectionately warn the Lodges under its jurisdiction to desist from any expression of opinion upon ques-tions of a political character—trusting that upon due reflection, the wisdom of such a course will be perfectly manifest.
